## AC ZONING UPGRADE PROGRAMME — DUCTED SYSTEM ZONING

Pinnacle Facilities is coordinating a building-wide upgrade to add zoning control to existing ducted air conditioning systems. By installing motorised zone dampers and a new control panel, residents can independently control the temperature in each zone — without replacing the existing ducted system. Volume pricing applies when multiple residents in the same building register together. This form registers your interest only — no commitment or payment is required at this stage.

### SECTION A — APARTMENT DETAILS

Building Name / Address \_\_\_\_\_

Unit Number \_\_\_\_\_ Floor Level \_\_\_\_\_

Apartment Type (tick one):

Studio       1 Bedroom       2 Bedrooms       3 Bedrooms       4+ Bedrooms

Primary facing direction (tick one):

North       South       East (morning sun)       West (afternoon sun)       Mixed / Not sure

### SECTION B — CURRENT AC ISSUES

Which of the following issues do you currently experience? (tick all that apply)

One room overheats while others are too cold       AC cools all rooms at once — no individual control

High electricity bills from cooling empty rooms       Can't sleep — bedroom too hot in the morning

Uncomfortable temperature differences across rooms       Turn AC off because some rooms get too cold

Additional comments or questions: \_\_\_\_\_

### SECTION D — CONTACT DETAILS

First Name \_\_\_\_\_ Last Name \_\_\_\_\_

Email Address \_\_\_\_\_ Phone Number \_\_\_\_\_

Preferred contact method (tick one):

Email       Phone call       SMS

**DECLARATION**

I understand that by submitting this Expression of Interest form, I am not entering into any binding agreement or commitment to purchase. I acknowledge that final pricing will be confirmed once volume registrations from my building have been assessed, and that I will be contacted by Pinnacle Facilities before any work is scheduled.
